PERSONAL DETAILS

Gender:	Male
Date Of Birth:	15th October, 2002
Marital Status :	Single
Nationality:	Malawian
Religion :	Christianity

PROFESSIONAL SUMMARY

Third-year Computer Science student with a strong understanding of coding principles and software design. Skilled in Python, Java, and C++ through university classes and group lab projects. Good at logical thinking and fixing code errors step by step. Fast learner ready to bring fresh ideas and teamwork to an entry-level development role.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL(Basic)

Tools & Developer Software: GitHub, VS Code, IntelliJ IDEA

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management

EDUCATION

Bachelor of science in computer science, DMI St. John The Baptist University [expected graduation June 2028]

Current Year: 3rd Year Student

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems.

Malawi School Certificate of Education (MSCE), Domasi Mission Secondary School

Years: 2016 -2021

ACADEMIC & PERSONAL PROJECTS

Inventory Management System | *python, sqlite, github, VS code [April 2025]*

- Programmed a desktop application to manage and track retail inventory using Python.

- Implemented a structured relational database using SQLite to ensure data integrity and persistence.
- Built a custom graphical user interface (GUI) to optimize the data entry process for end-users.
- Utilized Git version control regularly to manage codebase iterations and bug fixes.

Email sender application | *python, smtp, VS code, SQLite, GitHub,* google app password *[June, 2025]*

- Programmed a desktop application that is able to send emails using VS code.
- Implemented a structured relational database using SQLite to ensure data integrity, logs and persistence.
- Handled edge cases and error logging to ensure the program could run without crashing during server timeouts.
- Utilized Git version control regularly to manage codebase iterations and bug fixes.
- Built a custom graphical user interface (GUI) to optimize the data entry process for end-users.
- Using a google app password to let the application send email using simple mail transfer protocol(SMTP).

Hobbies and interests

- Programming
- Documentaries
